Hi Spanners, I have received this information from Rose.

Hi Ian

Thought I would let you know that Michael is in hospital and has just come out of intensive care after two major operations on his bowel and then he was in a coma for a week and only woke up on Monday.

His bowel is still not working so not sure where we go from here but at least he is awake. He is in the Epworth hospital in Richmond if any of the guys want to give him a call.

Regards
Rose
